COBISS.SR-ID 188165900

Aim of the Conference

Main aim of the conference is to enable young researchers (post-graduate, master or doctoral student, or a PhD holder younger than 35) working in the field of materials science and engineering, to meet their colleagues and exchange experiences about their research.

Topics

Nanostructured materials

New synthesis and processing methods

Materials for high-technology applications

Biomaterials

Scientific and Organizing Committee

Committee President

Nenad Ignjatović Institute of Technical Sciences of SASA, Belgrade, Serbia

Vice-presidents

Dragana Jugović Institute of Technical Sciences of SASA, Belgrade, Serbia

Smilja Marković Institute of Technical Sciences of SASA, Belgrade, Serbia

Members

Zorica Ajduković Medical Faculty, Niš, Serbia

Nikola Cvjetičanin Faculty of Physical Chemistry, Belgrade, Serbia

Gordana Ćirić-Marjanović Faculty of Physical Chemistry, Belgrade, Serbia

Kemal Delijić Faculty of Metallurgy and Technology, Podgorica, Montenegro

Miroslav Dramićanin Institute of Nuclear Sciences “Vinča”, Belgrade, Serbia

Jasmina Grbović Novaković Institute of Nuclear Sciences “Vinča”, Belgrade, Serbia

Dorđe Janačković Faculty of Technology and Metallurgy, Belgrade, Serbia

Ralph Kraehnert Technical University of Berlin, Germany

Nebojša Mitrović Technical Faculty, Čačak, Serbia

Željka Nikitović Institute of Physics, Belgrade, Serbia

Nebojša Nikolić Institute of Chemistry, Technology and Metallurgy, Belgrade, Serbia

Srečo Škapin Institute Jožef Stefan, Ljubljana, Slovenia

Vladimir Srdić Technological Faculty, Novi Sad, Serbia

Magdalena Stevanović Institute of Technical Sciences of SASA, Belgrade, Serbia

Edin Suljovrujić Institute of Nuclear Sciences “Vinča”, Belgrade, Serbia

Vuk Uskoković University of California in San Francisco, CA, USA

Marija Vukomanović Institute Jožef Stefan, Ljubljana, Slovenia

Conference Secretary

Aleksandra Stojičić Institute of Technical Sciences of SASA, Belgrade, Serbia

Results of the Conference

Beside printed «Program and the Book of Abstracts», which is disseminated to all conference participants, selected and awarded peer-reviewed papers will be published in the journals Tehnika – Novi Materijali and Chemical Industry. The best presented papers, suggested by Session Chairpersons and selected by Awards Committee, will be proclaimed at the Closing Ceremony.

VI/5

Oxidation of hydroxide ions at platinum modified zeolite electrode

Tihana M. Mudrinić, Zorica D. Mojović, Andjela S. Abu Rabi-Stanković,
Ana Z. Ivanović, Aleksandra D. Milutinović-Nikolić, Dušan M. Jovanović

*University of Belgrade, Institute of Chemistry, Technology and Metallurgy, Department of
Catalysis and Chemical Engineering, Belgrade, Serbia*

NaX zeolite was modified by platinum via impregnation/thermal decomposition technique, using Pt(II)-acetylacetonate in acetone as an impregnating solution. The samples were characterized by scanning electron microscopy. The mixture of modified zeolite and 10 wt. % of carbon black, in a form of thin layer, was pasted to a glassy carbon surface by nafion. The hydroxide ion oxidation was studied on this electrode by cyclic voltammetry. The response of modified zeolite electrodes was compared with platinum electrode, bare and covered with nafion film. The presence of nafion improved reproducibility of both covered platinum electrode and platinum modified zeolite electrode.
