

Supporting Information

Coordination and redox interactions of β -lactam antibiotics with Cu^{2+} in physiological settings and the impact on antibacterial activity

Bojana Božić, Jelena Korać, Dalibor M. Stanković, Marina Stanić, Mima Romanović, Jelena Bogdanović Pristov, Snežana Spasić, Ana Popović-Bijelić, Ivan Spasojević, Milica Bajčetić

Figure S1. Speciation diagrams of Cu^{2+} in the phosphate buffer. Diagrams were prepared in Hydra-Medusa Software, using the presented parameters.
